KW Fitness

FIND YOUR FIT!

Last Updated: Mar 12, 2026

KW Fitness - Find your fit!

Introduction

Purpose

At KW Fitness, our mission is to inspire and empower individuals to embrace the positive impact of healthy living through fitness. We believe wellness should feel accessible, uplifting, and sustainable for every stage of life.

Our goal is to help each person discover their own path to wellness. Fitness is not a one size fits all journey. It is personal, evolving, and deeply connected to the rhythms of everyday life.

As a small and dedicated company, we focus on building a supportive environment where individuals feel encouraged, capable, and motivated to grow. Through guidance, community, and practical wellness strategies, we strive to make a meaningful difference in the lives of those we serve.

About the brand

KW Fitness was founded by Katie Whitley, an adventurous athlete, devoted mother, and passionate wellness advocate.

After decades of experience helping others through Fit4Mom, Katie discovered that her greatest fulfillment came from empowering people to realize their own fitness potential. Through coaching, encouragement, and lived experience, she helped countless individuals build confidence in their bodies and their ability to pursue healthier lives.

KW Fitness represents the natural evolution of that work. It reflects Katie's continued commitment to supporting individuals through every phase of life, whether they are beginning their fitness journey or strengthening a lifelong commitment to wellness.

Drawing from years of personal experience and professional insight, KW Fitness aims to provide a trusted, encouraging space where people can grow stronger physically, mentally, and emotionally.

Our mission

KW Fitness empowers individuals to embrace healthy living through personalized wellness pathways in a supportive and uplifting community.

Our vision

KW Fitness envisions a future where everyone seeking a healthier life receives support and guidance. They aim to make fitness approachable, empowering, and sustainable through personalized wellness pathways and lifelong well-being.

Logo

This section should define how the logo should be used and what versions exist.

Include the primary logo (full lockup), and secondary variations (stacked, horizontal, icon-only), along with clear space and minimum size rules.

Primary logo

The shape: The KW Fitness logo uses a structured badge layout that combines a framed emblem with a directional banner. The emblem containing the “KW Fit” mark acts as the brand anchor, while the angled nameplate extends the brand outward with energy and forward movement. The overall geometry is clean and athletic, reflecting momentum, progress, and purpose in fitness.

The symbol: The “KW Fit” emblem represents the founder’s identity and the personal nature of the brand. The handwritten style of the “KW” reflects authenticity, personal coaching, and a supportive community rather than a corporate fitness environment. Together, the initials and the word “Fit” symbolize a personal commitment to health that is approachable, human, and rooted in real experience.

The style: The visual style of the logo is modern, energetic, and encouraging. The clean typography and soft athletic color palette create a balance between strength and approachability. The design avoids aggressive or intimidating fitness imagery and instead communicates positivity, confidence, and sustainable wellness. This makes the brand welcoming for individuals at all stages of their fitness journey.

Variations

KW Fitness

The variation: This stacked version separates the KW Fit emblem from the KW Fitness name, placing the emblem above the wordmark. The design maintains the visual identity of the primary logo while allowing for a more compact vertical layout.

The use case: Use the stacked version when vertical space is preferred or when the horizontal primary logo feels too wide. This version works well for social graphics, posters, digital headers, and merchandise where the design benefits from a balanced vertical composition.

The variation: This version uses only the KW Fit emblem as a standalone brand mark. The simplified design focuses on the core identity symbol while removing the extended wordmark.

The use case: Use the emblem when space is limited or when a simple brand stamp is needed. This version works best for profile icons, small social media graphics, apparel details, stickers, watermarks, and other compact applications where the full logo would be too detailed.

Logo usage

The KW Fitness logo should always be displayed with adequate clear space to maintain visibility and brand recognition. Avoid placing other design elements too close to the logo so it remains clean and legible.

For consistent readability, the logo should not be used below 25 mm in print or 90 px in digital applications. When smaller sizes are required, the KW Fit emblem may be used instead of the full logo.

Clear space rules

To maintain clarity and visual impact, the KW Fitness logo must always be surrounded by sufficient clear space. This space prevents other elements such as text, images, or graphics from crowding the logo.

The minimum **clear space should equal half the height of the emblem (0.5x)** on all sides of the logo. No visual elements should enter this protected area.

Maintaining consistent clear space ensures the logo remains legible, recognizable, and visually balanced across all applications.

Minimum size requirements

To preserve readability and brand integrity, the KW Fitness logo should never be displayed below the following minimum sizes.

- **Print applications:** Minimum width: **25 mm**
- **Digital applications:** Minimum width: **90 px**

If the logo must appear smaller than these sizes, the **KW Fit emblem-only version** should be used instead of the full wordmark.

Background Control

The logo should be used on backgrounds that provide sufficient contrast. Avoid placing the logo on complex imagery, patterns, or colors that reduce visibility.

Color

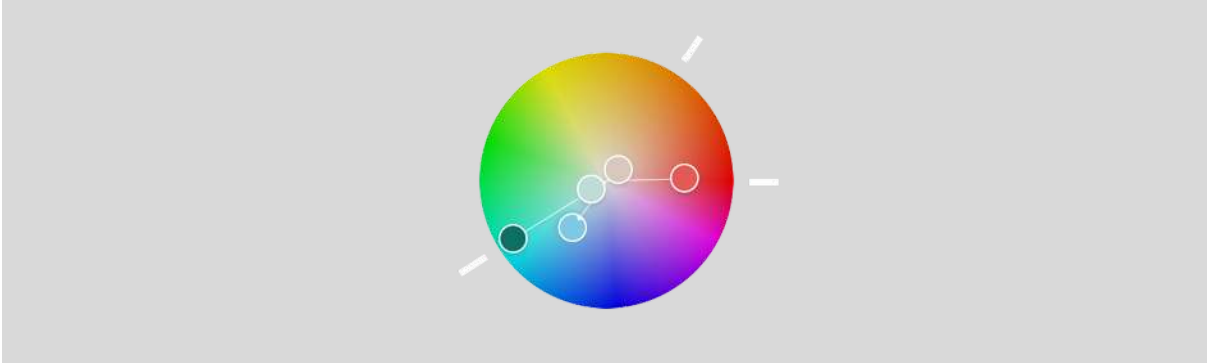
To maintain a consistent and balanced visual identity, KW Fitness uses a structured color system that includes primary, secondary, and supporting colors. This allows flexibility for social content, merchandise, print materials, and digital design while keeping the brand recognizable.

A general guideline for color usage is:

- 60% **Primary colors**
- 30% **Secondary colors**
- 10% **Accent colors**

Primary colors anchor the brand identity, secondary colors provide variety and balance, and accent colors are used sparingly to highlight key elements such as calls to action or important information.

Color Harmony: The KW Fitness palette uses a split complementary harmony centered on teal, balanced by coral accents and supported by aqua and neutral tones. This combination creates a visual identity that feels energetic, balanced, and welcoming while allowing important elements to stand out clearly.



Primary colors

Primary colors form the core identity of KW Fitness and should appear most frequently in branding materials, website elements, and apparel. These colors represent strength, energy, and vitality within the KW Fitness brand.

Deep Teal	Fresh Aqua	Coral Motion
#0F6F64	#4BA7BF	#E45A57
15, 111, 100	75, 167, 191	228, 90, 87
86, 0, 10, 56	61, 13, 0, 25	0, 61, 62, 11

Secondary colors

Secondary colors support the primary palette and provide visual flexibility for layouts, backgrounds, and content blocks. They help create a softer and more dynamic visual system while maintaining brand cohesion. These colors are ideal for background sections, supporting graphics, and softer visual moments in marketing content.

Mint Lift	Sky Energy	Warm Sand
#BFDCD7	#7EC9E6	#D8C9BF
191, 220, 215	126, 201, 230	216, 201, 191
13, 0, 2, 14	45, 13, 0, 10	0, 7, 12, 15

Accents

Accent colors are used sparingly to highlight key actions, important messages, or energetic moments within the brand. These colors should not dominate layouts but instead draw attention when needed.

Coral Motion	Fresh Aqua
#E45A57	#4BA7BF
228, 90, 87	75, 167, 191
0, 61, 62, 11	61, 13, 0, 25
Used for call to action elements, highlights, or energetic messaging.	Used for interactive elements, buttons, and visual emphasis.

Practical Design Tips

- Use **Deep Teal** for strong backgrounds and headlines
- Use **Mint Lift** **or** **Warm Sand** for soft background sections
- Use **Fresh Aqua** **and** **Sky Energy** for graphics or highlights
- Use **Coral Motion** sparingly for attention grabbing elements like buttons or promotional messages

This layered system allows KW Fitness content to stay visually consistent while remaining flexible for social media graphics, apparel designs, event materials, and digital experiences.

Color combinations and accessibility

Provide guidance on color combinations and accessibility contrast.

Typesetting and Hierarchy

The following is a hierarchy of KW Fitness fonts. Most often Montserrat and Aptos are used, however adding in Have Heart One will add a personal touch to designs.

Montserrat (Bl)	**Title**	42 pt
Montserrat (B)	**Heading**	32 pt
Have Heart One	Subtitle	32 pt
Have Heart One	Section Header	24 pt
Montserrat (SB)	Subheading	18 pt
Aptos	Body	12 pt
Alex Brush	*Quote*	20 pt
Aptos	Caption	9 pt

Voice

Voice Rule - KW Fitness always speaks with encouragement, never pressure.

Brand voice

KW Fitness communicates with warmth, encouragement, and real life understanding. Our voice is supportive rather than demanding. We celebrate progress at every stage and recognize that fitness is a personal journey, not a competition.

We speak like a trusted coach and a supportive friend. The tone is motivating, positive, and grounded in everyday life.

Warm

We make people feel welcome and valued.

"Let's make something wonderful together."

Encouraging

We celebrate effort and progress

"Small steps today create stronger tomorrows."

Empowering

We help people believe in their strength.

"You are capable of more than you think."

Tone variations

Use this section to guide how the brand voice adapts across different platforms and contexts. Adjust tone, formality, and language based on the audience and purpose of each channel.

Channel	Tone	Sample Copy
Social Media	Friendly, upbeat, community focused	“Strong women support strong women. What’s one win you had this week?”
Website	Clear, encouraging, welcoming	“Find your fit with KW Fitness and start building strength that lasts.”
Class Promotion	Motivating and energizing	“Join us this week and move, sweat, and grow stronger together.”
Community Messages	Supportive and personal	“We’re so proud of everyone showing up and putting in the work.”
Apparel or Merchandise	Short, empowering	“Stronger Every Day.”
New Member Welcome	Warm and reassuring	“Welcome to KW Fitness. We’re so glad you’re here.”
